

Dealer Pricing Structure

Mounts, adapters, boosters & pistons:

10% off single item order

20% off retail on order of 2-11 items

25% off retail for order of 12-49 items

35% off retail for order of 50 or more items

**This is mix and match, they do not all have to be the same item to meet the quantities.*

Suppressors:

10% off single suppressor order

15% off retail on order of 2-8 suppressors

20% off retail on order of 9 or more suppressors

**This is mix match, they do not all have to be the same model or length to meet the quantities*

**** IMPORTANT NOTE:** Dealer accounts with tiered pricing are generally ineligible for other sales, promotional offers and discounts that would compound the reductions. In the event that dealer accounts are not excepted from a sale, discount or promotional offer, the reduction will auto-apply during check out. Please do not message us asking why sales, promos or other discounts in addition to the tiered dealer account discounts were not applied; the answer will be exactly what was just detailed.

Demo models: While we do sometimes have blem products that would still qualify for normal tiered dealer pricing based on the discounted blem price, we do not offer any special “demo model deals” below the tiered pricing. We can send out our demo models to “try before you buy”, but they need to be returned, and insured shipping in both directions is your responsibility unless we come to any other agreement on a case- by-case basis. However, we will often credit those shipping expenses toward a subsequent order for multiple suppressors.

We do not do any type of “collaborating” in which we are expected to give out freebies for “exposure”.
